Court Houses

180 Queen Street West

330 University Avenue

Ontario Court of Justice

180 Queen Street West, Federal Courts, Toronto, Ontario

This 15 storey, 350,000 square foot office building houses the Federal Courts. The lower seven floors are built with higher floor to floor to house courts. It is being built with many "Green" features. The building includes a condensing boiler system and a 1200 ton chiller plant.

330 University Avenue, Federal Courts, Toronto, Ontario

The courts were initially relocated to this Canada Life head office building in 1994 and have proceeded through two expansions to the present. This project consisted of the complete replacement of all mechanical systems in a 1929 Heritage Insurance Company Head Office building during which parts of the space remained occupied. It included a dynamic buffer zone wall assembly and a breathing wall facility in the primary conference area. It also includes courtrooms, judge's chambers, jury and hearing rooms and administration space.

Ontario Court of Justice, Brampton, Ontario

This 350,000 square foot 6 storey facility consists of 34 courtrooms, 5 motions rooms, judicial chambers, private and open office space, large central custody area (with sally port, booking/search, interview cubicles, individual and multiple holding cells for male and female adults, young offenders, and those in protective custody), and satellite custody areas at each courtroom. Construction began in September 1997, and was completed in June 2000.
