

Representative Projects

## Industrial Buildings

Eli Lilly Plant

Viva Magnetics – Neilson and Finch Plants

Viva Magnetics Phase 4 Expansion

### **Ault Food Low Temperature Buildings, North York, Ontario**

This project consisted of the upgrade of existing refrigeration plant and CFC replacement.

### **Booth Centennial Laundry Services, Mississauga, Ontario**

This 250,000 square foot project included new gas, water and sanitary sewer connections, new process and general plant drainage systems, a new process ventilation system and a comprehensive schedule of service connections for high pressure steam, compressed air, natural gas, water and flue venting and combustion air intakes to a vast array of laundry equipment.

### **Eli Lilly Plant & Renovations, Scarborough, Ontario**

These new and retrofit projects included laboratory, processes and offices in this 150,000 square foot facility.

### **General Motors Car Plant, Oshawa, Ontario**

Projects included:

- GM Engine Dress Line - Revisions to the ventilation systems.
- GM Engine Dress Docks - Revisions to the dock areas.
- GM Battery Repair (Parts Building) - Revisions to sprinkler systems in the battery area of the building.
- GM Quality Audit Building addition.
- GM 10 Pilot Programme - Revisions to the line and office areas.
- GM 10 Final Finish - Revisions to the plant area.

### **Integral Plant, Windsor, Ontario (Magna)**

This involved a plant addition to the facility.

### **Karmax Plant, Milton, Ontario (Magna)**

This project involved a plant addition to the facility.

### **Viva Magnetics, Finch Plant and Neilson Plant, Scarborough, Ontario**

This project consisted of the design of two plants for this highly specialized manufacturer. Facilities included administrative office spaces with production and warehouse facilities. The Neilson Plant is 133,000 square feet and the Finch Plant is 250,000 square feet. TMP provided building services for production systems as well as portions of mechanical design for various systems.

### **Viva Magnetics, Phase 4 Expansion, Scarborough, Ontario**

This 111,840 square foot expansion to Viva Magnetics' Neilson Road site includes the design of underground (below slab) drainage.
