

ISMAILI CENTRE, OTTAWA, ONTARIO

Architect: Moriyama & Teshima Architects

Building Owner:

Status: Completed: Est. Spring 2010 Design Start: Nov. 2005 Design Finish: April 2007

Cost: Total: \$105,130,000 Mechanical: \$906,000

Firm's Role: Mechanical Engineering Design

Description: This project is made up of four components: The Ismaili Centre, The Ismaili Museum, underground parking and a central utility plant.

The Ismaili Centre is an 80,000 square foot two-story building housing a Prayer Hall, entrance foyers and cloakrooms, social hall, library, meeting rooms, administrative offices, main council chamber room, associated facilities such as washrooms, kitchens, etc. and a two level underground parking garage with a capacity of approximately 300 parking spaces.

The Ismaili Museum is a two-storey building with an approximate area of 65,000 square feet housing exhibit areas, workshops, restaurant, café, library, offices, meeting rooms, members lounge and an open courtyard.

An extension to the Ismaili Centre will be done to include underground parking which will house approximately 180 parking spaces serving both, the Ismaili Centre and the Museum. The underground parking will be ventilated, heated, sprinklered, and provided with floor drains.

There will be a central utility plant to serve the Ismaili Centre and Museum to be located within the general site.
